

## HYDRAULIC PUNCHING MACHINE

|                             | <b>Construction: IMS</b> |
|-----------------------------|--------------------------|
|                             | <b>Model: PHY 550</b>    |
|                             | <b>Code: PM</b>          |
| Serial nr.:                 | 5849                     |
| Year of construction:       | 2008 CE                  |
| Pressure:                   | 60 Ton                   |
| Adjustable stroke:          | 0÷50 mm                  |
| Maximum punch Ø:            | Ø 32 thickness 13 mm     |
| Free passage in the hollow: | 510 mm                   |
| Motor power:                | 4 Kw                     |
| Weight:                     | 1380 Kg                  |
| Work surface:               | 900 mm                   |
| Overall dimensions:         | 1720 x 620 x 1300 mm     |
